## Education

### Bachelors of Science in Software Engineering,

05/2022 – 07/2026 | Adama, Ethiopia

Adama Science And Technology University

- CGPA: 3.72/4

### Competitive Programming and Data Structure,

12/2023 – present | Adama, Ethiopia

Africa To Silicon Valley | A2SV - Backed by Google

- A2SV Student with a strong foundation in data structures and algorithms (Solved over 1150 problems on LeetCode and Codeforces) and hands-on experience in Mobile app development (1 real-world projects solving challenging problems for Africa)

## Professional Experience

### Eskalate LLC

03/2024 – 09/2024 | Adama, Ethiopia

#### Software Engineering Intern

- Led a cross-functional team of 5 developers to design and develop an e-commerce platform, resulting in a 20% increase in user engagement.
- Implemented Flutter Clean Architecture, reducing development time by 15% and significantly improving code maintainability.

### Liq Design Labs

01/2025 – present

#### Full Stack Developer

- I worked as a full-stack developer at Liq Design Labs, gaining experience in front-end and back-end development. My role involves designing and maintaining web and mobile applications while ensuring optimal performance. I am also improving my communication and collaboration skills by working closely with coworkers, designers, and project managers to meet project goals efficiently.

## Projects

### Ethio-Gpt

Developed a full-stack mobile application using Flutter for the front end, Node.js for the back end, and MongoDB for the database. The application allows users to communicate with AI in both Amharic and English.

### Ethio-Express

Developed a fully functional mobile application with complete eCommerce capabilities, including product browsing, secure payment processing, order management, and customer support. The app also integrates delivery features, allowing users to track shipments, schedule deliveries, and receive order status updates. It provides a seamless shopping experience from product selection to final delivery, ensuring convenience for both users and merchants.

### School Management System

I have developed a fully functional school management system designed to help schools efficiently manage various aspects of their operations. The system allows schools to oversee teacher and student records, track attendance, manage courses and schedules, and handle other administrative tasks. It streamlines day-to-day activities, improves communication, and ensures better organization, ultimately contributing to the smooth running of the school.

## Skills

**Advanced** — Python | Flutter | React | Mongo Db | My Sql | Node Js | Express Js | Telwind Css
